

2018/2019

Summer 1: The Crown Jewels

Summer 2: Around the world

The Crown Jewels

- 1) What is a monarch?
- 2) Who has been on the throne the longest?
- 3) Why do we have a queen?

Around the world in 7 weeks!

- 1) Which continent do we live in?
- 2) What is the difference between Europe and Africa?
- 3) Why is it always cold in Antarctica?

As writers we will...

Focus on learning about different features of writing traditional tales based on the royal family.

Write recounts using past tense and time connectives.

As artists we will...

Prepare art work for the art exhibition linked to our topic.

Draw effective portraits.

Learn about colour wheels.

As geographers we will...

Explore the seven continents of the world.

Learn more about the continent that we live in.

As mathematicians we will...

Consolidate our learning of place value, addition and subtraction.

Begin to understand fractions, time, money and multiplication and division.

As musicians we will...

To learn and perform a song for the KS1 sing-off.

Learn about the pulse, pitch and rhythm of music.

As historians we will...

Learn about famous queens and why they had an impact on our country.

Learn what a monarch is and where they live.

In ICT we will...

Work on various computer programmes such as Scratch and Lexia using the laptops.

In D&T we will...

Design and make a crown.

Make and taste foods from different countries.

As scientists we will...

Explore the different seasons that we are in and compare them as the year goes on.

Learn about plants and grow our own.

Learn about animals from around the world.
